**Maadi**

**30 June 2010**

**Dear Miss Michelle**

**I would like to say thank you to you, and to Miss Abeer, for making William's time at the Irish Nursery so enjoyable. Since you arrived at the school he has learnt so much, indeed my husband and I were both very impressed with him when he came home and started singing about the days of the week and the months of the year. It seems that he learnt them so quickly, and friends with older children are impressed that he knows them off by heart– when their children don't!**

**You have also made such an effort to do so many creative things, and have made all of this fun. Both you and Miss Abeer obviously really know the children and care about them and that really makes a difference. Even in the last few weeks, when William has been somewhat difficult (!) you have shown patience and support to him, and I trust your care of him totally.**

**He is looking forward to moving to the 'big school' in September, but I know that he will miss you both next term, and hopefully will be able to see you and say hello when I bring him with me to pick up Oscar, who will start school in January.**

**Once again, thanks to you both for making William's time at nursery so fulfilling and happy, and helping him learn so many new things. We will miss both of you!**

**Best wishes**

***Sarah and Vernon***
